"Good afternoon,

Following the below, and our recent phone calls, we wanted to provide you with an update on Rainier's outline application for land south of Banbury Road, Chipping Norton.

Following comments from the town council, together with feedback received from statutory consultees and officers, we have made some changes to the submission. In particular, this includes changes to the layout to create a more permeable scheme that better promotes active travel. This has been achieved through the inclusion of a 3m wide cycle / footway to the south of Banbury Road to link up the site up with the existing development west of the site and adjusting the proposed street layout to move away from a proposed cul-de-sac design. It's worth noting that further details would be progressed and agreed at the Reserved Matters stage, subject to outline planning permission.

Further detail on the changes that have been made can be viewed in the Design and Access Statement which has been uploaded to the application on [West Oxfordshire District Council's Planning Portal](#).

We hope this information is of use and please let us know if you have any questions.

Kind regards,

[REDACTED]

Turley"*

Members discussed the specific wording that the developers are using stating "up to 40% affordable housing" which is quite vague. Cllr Walker reported that due to the WODC requirements in the area, this would mean a minimum of 40% affordable housing.

Cllr Walker noted that the developers have taken note of the previous feedback and have amended the designs for pedestrian pathways and access toward London Road, which is welcomed.

Members queried if this land was allocated for development. Cllr Walker noted that there is a SDA and district Cllrs are directed to approve unless there is a very good reason to not allow this.

Members noted that the letters supportive of this development still noted that infrastructure needed to be updated to reflect the increased capacity that this development would bring to Chipping Norton, and that they would request for Grampian conditions to be applied to the site.

RESOLVED: No objection - In response to the amendments to the outline planning application for 23/00536/OUT, Chipping Norton Town Council has the following comments:

Members thanked the applicant for listening to previous feedback and comments from CNTC and making amendments to the proposed designs and access points for pedestrian footpaths cycleways, and access toward London Road. These amendments are very much welcomed.

Members also remarked after reading the comments in support of the

development noting that most cited the importance of the inclusion of affordable housing and infrastructure at the site. CNTC agrees with the comments from residents and would like to request that Grampian conditions regarding water and waste infrastructure are applied to the site.

The Town Council's solicitor has recommended that in order to give the Chippy Swifts security, to fix their lease rental at 30 years, index-linked with inflation. Cllrs mentioned that there is a formula which needs to be updated within the draft leave if the rent needs to be index-linked.
